A L.E.A.D. Academy

Reception class assembly

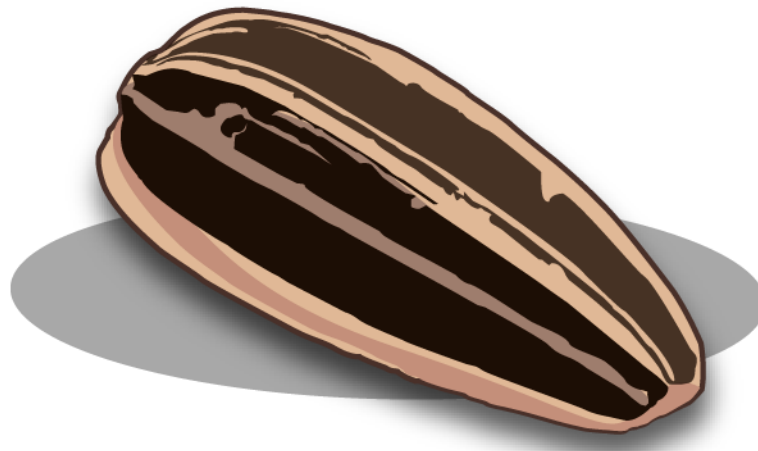

Welcome

Welcome to our class assembly.

This half term we are learning about
'planting and growing'.

This week we have been planting our own seeds.

They are sunflowers.

Hannah

Planting a seed

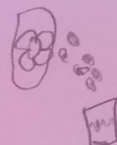

24.04.19
24.04.19

1.

put soil in a
pot.

2.

Plant a seed

3.

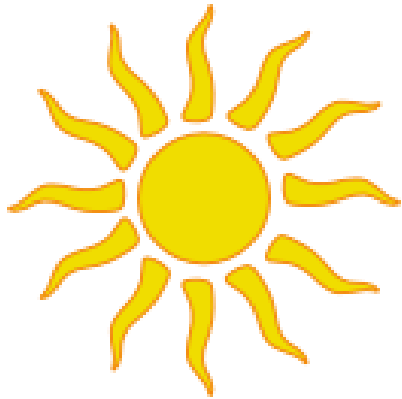

water the seed

4.

wait for it to grow

Seeds need sunlight and water to grow.

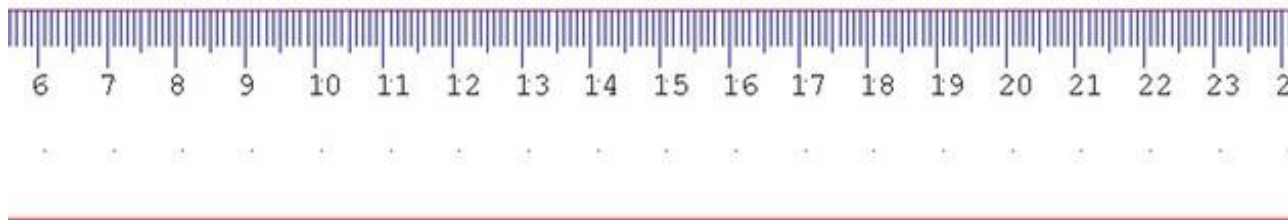

Our seed song.

We are going to see how high they can grow.

We are going to use rulers to measure the height that they are.

We are going to record our findings in our plant diary.

We measured ourselves in class.

Amani is the tallest and Hafsa is the shortest.

We all grow in our own way.

Our story this half term is 'Jack and the Beanstalk'

Jack sold his cow for magic beans.

A beanstalk grew and grew.

Jack climbed the beanstalk and found a castle at the top.

We look forward to reading more of the story.

Animals grow too.

Linking with our story we will be looking at farm animals.

A baby pig is a piglet.

A baby cow is a calf.

A baby hen is a chick.

Spring chicken song.

We are very excited to learn more about planting and growing.

Some questions....

How high will my sunflower grow?

Can things grow in the dark?

Why is Jack's mother angry?

What is at the top of the beanstalk?

What will happen to the beanstalk?

Thank you for listening to our class assembly.

We hope you enjoyed it!
