

Nursery Newsletter

This half term we will be looking out for the signs of Spring and what happens to our environment during the season, using the book 'Spring is Here' to help us learn about the season. As part of this we will be investigating minibeasts and their habitats, and looking for them in our environment.

Our Maths focus for this half term will be measuring in different ways and using different tools to help us such as rulers, tape measures, scales and measuring containers. This will include vocabulary such as 'heavy', 'light', 'longer', 'shorter' and 'taller.'

We will also be doing lots of gardening this half term to support our learning, talking about how plants grow, how tall they become and the minibeasts and creatures they might attract. We will be reading and retelling the story 'Jack and the Beanstalk' as a provocation for our learning.
