Foundation Curriculum Overview

Edna G Olds Academy
A L.E.A.D. Academy

In order to devise a curriculum that is responsive to pupil's needs, the school has developed a curriculum which ensures each subject area is taught half- termly. This enables deep understanding and knowledge to be built upon and applied to all areas of learning in a variety of contexts. All staff have a clear understanding of different pedagogical approaches that support children to learn and how these may differ by subject, they understand how the brain processes and retains information and adapt their teaching to support the pupils within their class. Over the course of study, teaching is designed to help learners to remember, in the long term, the content they have been taught and to integrate new knowledge into larger concepts.
